Amazing Work

Beneath the warm sunshine, was a bustling marketplace full of colorful, vibrant stalls and beautiful, prosperous temples. Merchants jeered before each other, as birds chirped cheerful songs. In the center of the town, was an ancient, stone Forum used for speeches. The Forum was a noisy river of shoppers and traders here, there, everywhere. It was clear the marketplace was as busy as a ceremony. Later in the evening, the sound of children playing, cheering and giggling echoed through the marketplace. It was a hive of fun, lively activity. People worshipped the delicate, pearl-white statues as clear, calm waterfalls splutter water into the waves river. The smell of fresh, green olives filled the air as roasting meat smoked across the marketplace. All the families chattered happily until...

The volcano woke suddenly, all the cheerful, lively birds flew away, the light disappeared. Suddenly, the ground began to shake like a church bell ringing on a Sunday morning. Grey, loomy ash fell like thick, heavy snow. Just then, the citizens saw a volcano beginning to glow. From the sky came a roar. Citizens stumbled and ducked as the volcano began to erupt. Burning lava and magma bubbled, the sky filled with ash. Pumice rained to the ground with a CRASH!

A blanket of darkness covered the sky. All there was left was chaos and destruction. People ran frantically as their loved ones were gone. Toxic gas filled the stalls. It spewed smoke 20 miles above. The smell of crackling fire filled the air, all hope was gone. Everything was lost. Afterwards, the empty, stone houses stood eerily in the silent sun as ghostly buildings crumbled to the ground. A blanket of black ashes covered the town. It felt like a haunted dungeon. The once-crumbled marketplace burnt to ashes as it crashed to the ground. All you could hear were soft rumbles and the smell of faint crackling fire. Small pieces of rubble trickled to the ground slowly... slowly... slowly. It lay like a jigsaw of ruins. But finally the lost town rests peacefully beneath the shadow of the volcano.

We would also like to celebrate Khadeeja in year 4 for their amazing writing about Pompeii - what a fantastic piece of work! We are so proud of the creativity and effort shown. Have a look for yourself! It is wonderful to see our children Aiming High and embracing opportunities to to practice in school and at home have really shown!

Online Safety

We would like to remind families of the importance of ensuring that children only have access to games, apps and devices that are appropriate for their age. Age ratings are in place to help protect children from content that may be unsuitable, including violence, explicit language, gambling themes and online interactions with strangers. Following the recent release of Grand Theft Auto VI (GTA 6), a number of children have openly discussed playing or having access to the game. We would like to highlight that GTA 6 carries an 18+ age rating and is intended for adults only. The content of the game is not suitable for primary-aged children.

We encourage all parents and carers to regularly monitor the games their children are accessing and to make use of available online safety measures, including parental controls, age restrictions, screen time settings and privacy settings on devices and gaming platforms. It is also important to have regular conversations with children about staying safe online and reporting anything that makes them feel uncomfortable.

Thank you for your continued support in helping us keep children safe both in school and online.
