

OLD FLETTON PRIMARY SCHOOL

Weekly update - Monday 7th December 2020

Latest news:

Peterborough Christmas lights switch on

It has been our absolute privilege and pleasure to be part of the city's start to Christmas. Mrs Barton and Mrs Lane along with some Year 3 children really did us proud as our contribution to this video is truly lovely. If you would like to see our Year 3 contribution follow this link: <https://youtu.be/aD0dbReV7xk> (we appear about 6 minutes in).

Test and Trace and the end of term

There is still a requirement on the Friday and Saturday as we close for Christmas for you to inform school should your child test positive for Covid 19. We have been extremely fortunate so far with very little impact in school, however, we must remain vigilant and prepared. I am required to report positive cases during these two days and then take necessary steps to inform other families so they can self isolate. For these two days only please use my email address head@oldfletton.peterborough.sch.uk.

Lexia for Year 2

The personalised catch up programme has been so positively received by the vast majority of children that we will extend this provision into Year 2 after Christmas. The power of the programme is the personalised way it meets each individual child's needs and tailors the support they require. Welcome on board Year 2 - login details will be ready for 2021.

Mathletics

Mr Pike is a very competitive man and is keen to see our Maths homework provision be as well received as our Reading. He is planning to introduce Mathletics from Reception to Year 6 in the new year.

Where Lexia is a personalised programme, Mathletics is more closely aligned to the curriculum being taught and allows for individual, local, national and international challenges.

Relationships & Health Education

Please see page 2 for the proposed curriculum to be delivered inline with national changes and influenced by the Cambridgeshire PSHE Service. A questionnaire will follow next week to gather your feedback. As you will see, not a lot has changed but we just wish to keep you informed.

Keeping children safe online:

The best way is to supervise and monitor your child when they are using the internet. Our advice would be to avoid all social media for primary school age children however, having regular open conversations about their experiences online will enable them to feel comfortable to share with you anything that has caused upset or distress.

Attendance last week:

RCH	99.7%	3KL	97.6%
RMK	100.0%	4HD	93.5%
1JR	98.6%	4HV	98.1%
1NG	95.3%	5RT	95.7%
2AM	97.4%	5SF	94.8%
2CC	95.7%	6JP	97.2%
3EB	96.0%	6SS	93.8%
