

M A T H S	Place value & number	Blue
	Calculation	Yellow
	Measures	Orange
	Fractions & Decimals	Pink
	Geometry Properties of shapes	Purple
	Statistics	Red
	Geometry Position & direction	Brown
	Algebra	Cyan
	Ratio	Light Green

Year 6 Interleaved Curriculum

Place value & number	Calculation	Measures	Fractions & Decimals	Geometry properties of shapes	Statistics	Geometry position & direction	Algebra	Ratio
----------------------	-------------	----------	----------------------	-------------------------------	------------	-------------------------------	---------	-------

Block 1

Place value & number	Calculation	Fractions & Decimals
<ul style="list-style-type: none"> Read and write numbers up to 10,000,000 and determine the value of each digit Identify the value of each digit in numbers up to 3 decimal places Compare numbers up to 10,000,000 and determine the value of each digit Order numbers up to 10,000,000 and determine the value of each digit Round whole numbers to a degree of accuracy Round decimal numbers to 1 decimal place and whole numbers Round decimal numbers to 2 and 3 decimal places 	<ul style="list-style-type: none"> Perform mental calculations for addition (compensation/ counting on) Perform mental calculations for addition (partitioning) Perform mental calculations for subtraction (compensation/ counting back) Perform mental calculations for subtraction (partitioning) Solve missing number multiplication grids using the inverse Perform mental calculations for multiplication using multiples, factors, near multiples, x 4 x 8, partitioning and using known relationships 	<ul style="list-style-type: none"> Compare decimal numbers up to 3 decimal places Order decimal numbers, mixed decimal place Identify equivalent fractions

Block 2

Place value & number	Calculation	Fractions & Decimals
<ul style="list-style-type: none"> Use negative numbers in context and calculate intervals across zero 	<ul style="list-style-type: none"> Long multiplication calculations Long division calculations including remainders Solve whole number problems involving all four operations real life context (with and without measures) Solve undoing questions including all four operations Identify common factors, multiples and prime numbers 	<ul style="list-style-type: none"> Use common factors to simplify fractions Multiply and divide by 10, 100 and 1,000 giving answers up to three decimal places Use common multiples to express fractions in the same denomination Know the fraction, decimal percentages equivalents Complete fraction sequences Solve word problems involving finding percentages of numbers Solve fraction word problem using the bar model

Block 3

Measures	Fractions & Decimals	Geometry position & direction	Algebra	Ratio
<ul style="list-style-type: none"> Use, read, write and cover between standard units of measure Solve problems involving the calculation and conversion of units of measure 	<ul style="list-style-type: none"> Multiply and divide decimal numbers by whole numbers 	<ul style="list-style-type: none"> Describe positions on a full coordinate grid Draw and translate shapes on a coordinate plane 	<ul style="list-style-type: none"> Solve simple formulae Calculate the area of parallelograms and triangles using formulas Calculate volume of cubes and cuboids including missing sides Generate and describe linear sequences Express missing numbers algebraically Find pairs of numbers that satisfy equations with two unknowns 	<ul style="list-style-type: none"> Understand what ratio is and represent using the bar model Solve ratio questions Solve problems involving the calculation and conversion of units of measure Solve multistep problems independently

Block 4

Calculation	Measures	Geometry properties of shapes	Statistics	Geometry position & direction	Algebra
<ul style="list-style-type: none"> Interpret remainders in the context of the question (worded problems) 	<ul style="list-style-type: none"> Calculate, estimate and compare the volume of cubes and cuboids using standard units, including cm^3, m^3 and extending onto other units mm^3 and km^3 	<ul style="list-style-type: none"> Compare and classify shapes based on their properties parallelogram, trapezium, 4 types of triangle, kites, SASO properties Find missing angles in all 4 types of triangle, around a point, on straight lines and quadrilaterals Recognise, describe and build simple 3D shapes including making nets Name the parts of a circle and reason using this information 	<ul style="list-style-type: none"> Interpret tables and bar charts and answer related questions Interpret line charts and answer related questions Interpret pie charts and answer related questions Find the mean of a set of data 	<ul style="list-style-type: none"> Complete reflections on a coordinate 3 grid 	<ul style="list-style-type: none"> Enumerate possibilities of combinations of two variables
