	Calculation	Yellow
	Measures	Orange
	Fractions & Decimals	Pink
	Geometry Properties of shapes	Purple
	Statistics	Red
	Geometry Position & direction	Brown
	Algebra	Cyan
	Ratio	Light Green

## Year 4 Interleaved Curriculum

Place value & number	Calculation	Measures	Fractions & Decimals	Geometry properties of shapes	Statistics	Geometry position & direction
----------------------	-------------	----------	----------------------	-------------------------------	------------	-------------------------------

### Block 1

Place value & number	Calculation	Fractions & Decimals
<ul style="list-style-type: none"> <li>Read and write numbers up to 10,000 and determine the value of each digit</li> <li>Identify, represent and estimate numbers using different representations</li> <li>Compare numbers up to 10,000 and determine the value of each digit</li> <li>Order numbers up to 10,000 and determine the value of each digit</li> <li>Find 1,000 more or less than a given number and count in multiples of 25</li> <li>Round any number (up to 9,999) to the nearest 10</li> <li>Round any number (up to 9,999) to the nearest 100</li> <li>Round any number (up to 9,999) to the nearest 1000</li> <li>Count backward though zero to include negative numbers</li> </ul>	<ul style="list-style-type: none"> <li>Solve addition and subtraction calculation questions up to 4 digits</li> <li>Estimate and use the inverse operation to check answers to a calculation</li> <li>Use the inverse to calculate addition and subtraction missing number problems</li> </ul>	<ul style="list-style-type: none"> <li>Count up and down in hundredths, recognise that hundredths arise when dividing 1 by 100 and tenths by 10</li> <li>Recognise and write decimal equivalents of any number of tenths and hundredths</li> <li>Find the effect of dividing 1 &amp; 2 digit numbers by 10 and 100 identifying the values of the digits</li> <li>Compare numbers with the same number of decimal places (up to 2 decimal places)</li> <li>Round decimals with 1 decimal place to the nearest whole number</li> </ul>

### Block 2

Calculation	Measures	Fractions & Decimals
<ul style="list-style-type: none"> <li>Use the inverse to solve multiplication and division missing number questions</li> <li>Use place value, known and derived facts to multiply and divide mentally (including multiplying by 0 and 1); multiplying three numbers</li> <li>Solve addition and subtraction two step problems in contexts, deciding which operations and methods to use and why</li> <li>Recognise and use factor pairs and commutativity in mental calculations</li> <li>Multiply two digit and three digit numbers by a one digit number using the formal written layout</li> <li>Solve problems involving multiplying and adding including using the distributive law to multiply two digit numbers by one digit</li> </ul>	<ul style="list-style-type: none"> <li>Measure and calculate the perimeter of a rectilinear figure (including squares) in cm and m</li> <li>Find the area of rectilinear shapes by counting squares</li> <li>Solve problems involving increasingly harder fractions to calculate quantities and fractions to divide quantities including non unit fractions</li> </ul>	<ul style="list-style-type: none"> <li>Recognise and show, using diagrams, families of common equivalent fractions</li> <li>Add and subtract fractions with the same denominator</li> <li>Calculate fractions of a number using place value and times tables eg. <math>\frac{1}{5}</math> of 200</li> <li>Solve problems involving increasingly harder fractions to calculate quantities and fractions to divide quantities including non unit fractions</li> </ul>

### Block 3

Calculation	Measures	Fractions & Decimals	Geometry properties of shapes
<ul style="list-style-type: none"> <li>• Complete short division calculations 2 and 3 digit by 1 digit using the formal method</li> <li>• Solve whole number problems that involve 2 or 3 steps that involve a combination of the four operations</li> </ul>	<ul style="list-style-type: none"> <li>• Convert between different units of measure (for example km to m, hour to minutes)</li> <li>• Estimate, compare and calculate different measures, including money in pounds and pence</li> <li>• Read, write and convert time between analogue and digital 12 and 24 hour clocks</li> <li>• Solve problems, involving converting hours to minutes, minutes to seconds, years to months; weeks to days</li> </ul>	<ul style="list-style-type: none"> <li>• Divide 1 and 2 digit whole numbers by 10 and 100</li> <li>• Recognise decimal equivalents of any number of tenths and hundredths</li> <li>• Recognise and write decimal equivalents to <math>\frac{1}{4}</math>, <math>\frac{1}{2}</math>, <math>\frac{3}{4}</math></li> <li>• Compare numbers with the same number of decimal places up to 2 decimal places</li> </ul>	<ul style="list-style-type: none"> <li>• Compare and classify geometric shapes, including quadrilaterals and triangles based on their properties and sizes</li> <li>• Identify lines of symmetry in 2D shapes represented in different orientations</li> <li>• Complete simple symmetric figure with respect to a specific line of symmetry</li> </ul>

### Block 4

Calculation	Measures	Geometry properties of shapes	Statistics	Geometry position & direction
<ul style="list-style-type: none"> <li>• Solve whole number problems that involve 2 or 3 steps that involve a combination of the four operations</li> </ul>	<ul style="list-style-type: none"> <li>• Convert between different units of measure (for example km to m, hour to minutes)</li> <li>• Read, write and convert time between analogue and digital 12 and 24 hour clocks</li> <li>• Solve problems, involving converting hours to minutes, minutes to seconds, years to months; weeks to days</li> </ul>	<ul style="list-style-type: none"> <li>• Identify acute and obtuse angles with a range of shapes</li> <li>• Compare and order angles up to two right angles by size</li> <li>• To read Roman numerals 1-100</li> <li>• Measure angles accurately using a protractor</li> </ul>	<ul style="list-style-type: none"> <li>• Interpret and present discrete and continuous data using appropriate graphical methods - bar charts, time graphs and line graphs</li> <li>• Solve comparison, sum and difference problems using information presented in tables, bar charts and pictograms</li> </ul>	<ul style="list-style-type: none"> <li>• Describe positions on a 2D grid as coordinates in the first quadrant</li> <li>• Describe movements between positions as transitions of a given unit to the left/right and up/down</li> <li>• Plot specified points and draw sides to complete a given polygon</li> </ul>
